Subject: RESEND: Prescribed burn Thursday report

After the first "send", I received several more pictures and want to share the additions with you.
Judy

From Chief Rodriquez:

Crews began introducing fire this morning along the 99Z Road and heading south towards the highway. Their intent is to treat the entire eastern side.

Picture was taken from Merzville Road, about 1 block south of the fire station.

Black Mesa Hotshot Division Supervisor Frank "Pancho" Auza drip torching along the 99 road.

NOTE: Frank is a 3rd generation member of the Auza Sheep Company, who herds the sheep that come through Forest Lakes every summer. He grew up in the sheepherding business. What a pleasure for us to have him on the Hotshot team!

Pine litter and undergrowth burning as intended. Valuable impact for forest health and community safety.

"Our" Hotshots that have been working so hard for our safety and peace of mind. Taking a break. The cell phones work! Yes, everything is under control!

FLFD On Duty crew standing by. Bryan Hyer & Benny Ruiz on Attack 1211. Jim Weigold on Water Tanker 1211.

THANK YOU to everyone working for our safety and peace of mind today! You are very much appreciated!
