

Subject: FL Happenings #3 for May
From: "Forest Lakes News" <flnews@cox.net>
Date: 5/23/2018 5:12 PM
To: <flnews@cox.net>

I will begin with some follow-up to the last email that was sent regarding Fire restrictions and closures.

- Here is the Coconino County Call Center number that I said I would send as soon as it was set up and available: 928-213-2990
Reminder; this is for county questions; not forest service questions.
- The Apache-Sitgreaves Forest to the North of Highway 260 is open. Yes, you can hike and take rides in that part of the forest. Of course, NO campfires.
- The Green Waste Transfer Station is open.

2018 FL Phone Directories will be available beginning Saturday!!

There will be a charge of \$2 each due to the high increased printing cost this year.

The Business Directory has a new look! It now has categories such as Handyman, Groceries, Restaurants, Plumber, Landscape Clean-up, Snow Removal, etc. with the name of some of the area businesses that provide the service. The businesses who have paid for an ad will be indicated. Please support them! Their ads help pay for the printing of the directory and keep the cost down for you. The Business Section of the directory is also available online at www.floa.org under "Businesses".

Directories can be purchased at the following locations:

- Forest Lakes General Store
- Rim Resort Store
- Library (during open hours only)
- Pancake Breakfasts
- Community Markets
- Blood Drive
- Monthly FLOA Meetings

You can ask for an E-Directory by emailing a request along with your Lot number to flnews@cox.net. These are at no cost.

Please do not use the Directory for solicitation purposes. For privacy reasons, the Residence Listings are NOT available online.

WATER DRIVE!!

The Fire District is in need of your assistance! The Auxiliary is requesting donations

of flats of drinking water and/or any type of boxes of power/protein bars. These donations may be dropped off at the old fire station during regular business hours, but please stop by the office in the new station so someone can assist you. Thank you! Forest Lakes Fire District Auxiliary

FLOA Facility (Community Center) Update

In the past 60 days FLOA has made several facility improvements that shall ease your capabilities of walking, with the addition of an ADA compliant concrete walkway, installation of a concrete patio in front of the "Q", emplacement of firmer ground cover throughout the canvas Rummage Sale area and the local vendor display booths. Parking is improved by addition of diagonal slots which are along the newly installed walkway going from the Community Center House to the "Q". The entire Southern property line has been improved and cleared for more off road vehicle parking.

Participants in this year`s Memorial Day festivities will be served out of our newly constructed multi-purpose facility which was erected under the coordination of Cal Phillips (Project Mgr.) and community property owners / volunteers in record time.

Many "thanks" to the numerous volunteers who have contributed to construction, canvas setup, rummage sale organization, ground cover hauling / material application , House and "Q" Cleaning, and planned facility painting / floor epoxy application to be accomplished after the holiday event. These improvements that occurred / as well as future planned actions couldn't have been accomplished without your dedicated and timely involvement, and your membership dues. "Thank You All"

Wayne Rothwell
President, Forest Lakes Owners Association

The **Forest Lakes Community Library** will have a table set up at the Pancake Breakfast on Saturday. Stop by and meet our new Librarians and get to know what is happening at our Library!

A few more things to help make our holiday week-end fantastic for everyone!:

Follow the OHV rules on your ATV's!

Drive v..e..r..y s..l..o..w...l...y to keep the dust levels down.

Take a hike but know how to get back home!

Enjoy lots of fun and food with family and friends!

Most of all, be safe in every way!

Judy Nelson, Editor
